Reading the Grid

1. **Phenomenology (P)** saturates every voice: nihilism is first *felt*.
2. The ostensibly opposed pair **Nietzsche (11)** ↔ **Eckhart (14)** score identically on P–E–S, diverging only on T—demonstrating the latent common ground.
3. **Naturalism Insufficiency (N)** binds Russell’s stoic atheism to Augustine’s mystic yearning: both admit empirical maps cannot carry existential weight.
4. Secular extremity (*Ligotti, Zapffe, Heisman*) and apophatic mystics (*John of the Cross, Angela*) cluster around **Suffering (S)** and **Ego-Dissolution (E)**—same doorway, different speech-codes.

Next step: specify **quote-level evidence** for each cell or run statistical convergence analysis across columns.

Say “**Drill down <theme-#>**” (e.g., *Drill down 3*) to unpack cross-thematic quotations and commentaries.
